

# AgTech and Aquaculture Industry Taster Workshops

## Dive into the future of AgTech

### AgTech Workshops coming soon to you!

Explore the fascinating world of agriculture and aquaculture, discover cutting-edge technology, and learn about exciting career opportunities in your region.

Join us at the TAFE Queensland Whitsundays Campus, Aquaculture Centre of Excellence or the TAFE Queensland Bowen Campus, Agriculture Centre of Excellence for exciting workshops for local school students. Engage in interactive science activities, experience augmented and virtual reality, witness drone demonstrations, immerse yourself in farm robotics or get hands on with fish feeding and grading.

The program will include;

- Online and self-paced access to two new AgTech Skills Hub, industry endorsed micro-credentials. Students can gain an industry recognised micro-credential and receive a digital badge on completion.
- Students can choose two of the following options.
  - Drones - Use and maintenance
  - Environmental sustainability
  - Introduction to autonomous equipment
- Access to local industry employers throughout the day who can answer all your questions on the aquaculture and agriculture sectors, the technology that they use and future jobs for you.
- Information on the new and exciting Certificate II Qualifications available for you.
  - Certificate II Aquaculture starting Semester 2 2024\*
  - Certificate II Rural Operations (Autonomous) starting Semester 1 2025
- Learn about our entry position interview guarantee for any student completing the new Certificate II Aquaculture

### *Be the future of AgTech and Aquaculture.*

\*Students completing the Certificate II Aquaculture are guaranteed an interview from one of our industry partners, Tassal, Australian Prawn Farms and Coral Coast Barramundi for an entry level position at one of the their farms in Queensland.
